ADVANCED DISCOVERY ANNOUNCES THE ADDITION OF BRIAN KAWASAKI AS EXECUTIVE VICE PRESIDENT

MOUNTAIN VIEW, Calif. – (October 11, 2010) – Advanced Discovery announced today the hiring of Brian Kawasaki as Executive Vice President. Mr. Kawasaki is a leading electronic discovery consultant and expert in technology applications and case matter workflow design. As a key technical advisor Brian has designed and managed numerous complex electronic discovery litigation and investigatory matters with a focus on implementing the most effective use of technology. Consequently Brian’s primary role with Advanced Discovery will be to analyze, consult, design and implement project workflow from pre-collection planning through collection, review and production.

“We are excited for Brian to join our team,” said Thadd Hale, COO of Advanced Discovery. “Brian’s technical experience with Relativity and Clearwell is second to none. Having held high ranking positions in operations and consulting Brian brings the proper experience needed to manage large cases from collection through production. “

About Advanced Discovery

Advanced Discovery is a leading provider of eDiscovery services to clients worldwide in both the legal and corporate communities. Our services include computer forensics, electronic discovery, early case assessment, web hosting, document review and paper discovery. Advanced Discovery offers technology solutions that assist law firms and corporations to quickly and accurately reduce vast amounts of electronically stored information into essential and searchable data sets effectively providing a high value product at a low comparative cost. Headquartered in Mountain View, Calif., Advanced Discovery also maintains locations in San Jose, San Francisco, Los Angeles, Orange County, Chicago, Austin, Texas and Overland Park, Kans.
